#### Professional Summary

Highly dedicated and compassionate Registered Nurse with 5 years of comprehensive clinical experience in fast-paced paediatric and acute medical settings.

#### Clinical Experience

Staff Nurse, Paediatric Ward | Great Ormond Street Hospital for Children | London, UK

October 2021 · Present

Provided holistic nursing care to an average of 6-8 paediatric patients per shift, ranging from neonates to adolescents, with complex medical needs.

Administered intricate medication regimens, including chemotherapy and IV infusions, ensuring accurate dosages and adherence to treatment protocols.

Educated parents and guardians on disease management, post-discharge care, and medication administration, empowering families to manage their child's health effectively.

Collaborated with a team of 15+ healthcare professionals, including consultants, junior doctors, and allied health staff, to develop and implement evidence-based care plans.

Utilized advanced assessment skills to identify subtle changes in paediatric patients' conditions, leading to timely interventions and improved outcomes.

Registered Nurse, Acute Medical Unit | St Thomas' Hospital | London, UK

September 2019 · September 2021

Managed the care of 8-10 adult patients per shift with a wide range of acute medical conditions, including respiratory, cardiac, and neurological emergencies.

Proficiently performed vital signs monitoring, wound care, catheterization, and EKG interpretation, documenting all observations and findings accurately.

Spearheaded a unit-wide initiative to improve patient handover efficiency, reducing handover time by 15% and enhancing communication between staff.

Consistently received commendations for empathetic communication and patient advocacy, contributing to overall patient satisfaction and trust.

Responded effectively to medical emergencies, participating in resuscitation efforts and stabilizing critically unwell patients according to established protocols.

#### Education
